

America was built on freedom and most importantly the right to choose. I choose to pay the monthly fee to have XM Satellite Radio service to have the variety and quality that I cannot get from FM or AM. Another feature of XM is traffic and weather reports which I find critical in my life as a travelling salesman. Trying to find an airwave station that has good reception is hard enough, much less trying to find one that is playing the weather or traffic when I need it. Therefore, I respectfully request that you reject the National Association of Broadcasters' petition 04-160.

Thank you,

Leonard Poole
